

BUILDING WITH MINI-BRICKS

PENSTAND

Bottom layer is layer 1

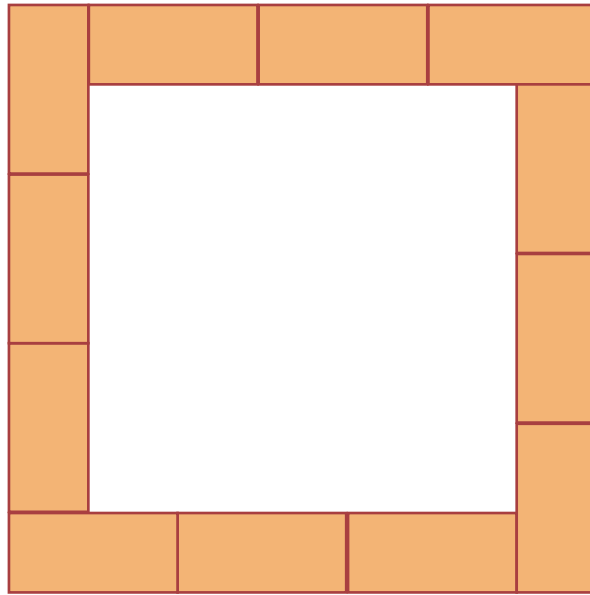

Next layer is 2 and so on

Instructions

1. Take a printout (A4 size).
2. Place the paper on a flat surface & align the bricks on top of the printed layout.
3. Follow the steps in other layers to create a penstand.
4. There can be an error of 2mm as the clay bricks shrink after firing.

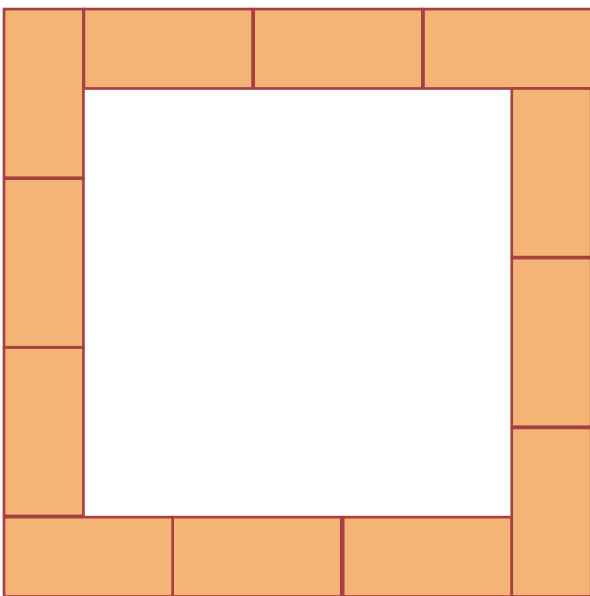

Penstand with Mini Bricks

Place the bricks on top
of the printed sheet

Cut along dotted lines

Layers 1, 3, 5 look like this

Layers 2, 4, 6 look like this
